

# Frank Luis-Ravelo | Software Developer

(857) 504-5038 | [frankluisravelo@gmail.com](mailto:frankluisravelo@gmail.com) | 25 Devens St, Everett, MA 02149

## Web Developer Intern, Center Centre - UIE | Jun 2021 - Present (Remote)

**Worked with senior developers/mentors on projects, both large and small, from discovery to deployment.**

- Created, tested, and scheduled multiple responsive email campaigns each day. (HTML/CSS)
- Updated multiple company sites using tools such as WordPress, PHP, Laravel.
- Wrote documentation updates for internal workflows and processes. (Notion, GitHub)
- Worked on Projects to minimize user friction when subscribing to the company's Calendar/events.
- Received mentorship from Jared Spool, a recognized authority in UX Strategy with over 32 years of experience and research.

## Web Developer Pro Bono, Just One Penny | Jul 2020 - Jun 2021 (Remote)

**Shaped and supported Just One Penny's website by delivering and documenting reusable components, coded using TypeScript, React, and Node, ensuring cross-browser functionality and responsiveness.**

- Worked to build the first platform that will allow givers to establish recurring donations of as low as \$.01 per day to the charities of their choice.
- Collaborated with an agile team of 20 developers to build the MVP for Just One Penny's website.
- Developed a donation model to store user contributions within a MongoDB database.
- Developed CRUD routes and RESTful APIs using Express.js.

## Software Engineer Fellow, General Assembly | Feb 2020 - May 2020 (Boston, MA)

**Completed four major projects, developing, testing, and maintaining Web-based software throughout 12-week and 500+ hours of Bootcamp.**

- **Featured project: ComeCrioLlo** — [GitHub](#) - [Website](#): MERN stack application that aims to help people connect with small businesses in third-world countries. MongoDB, Express.js, React, and Node.js.
- **Featured project: InvApp** — [GitHub](#) - [Website](#): A visual workspace that allows you to create, and edit visual tables. JavaScript, HTML, SCSS, JQUERY, Ruby on Rails, PostgreSQL.

## Previous Experience

**General Manager, Otto Portland:** Dec 2017 - Feb 2020 (Cambridge, MA)

Promoted from Supervisor to General Manager during my tenure. Improved labor costs by 10%, creating labor forecasts to plan budget more efficiently. Boosted sales creating promotions targeted toward students in the Cambridge area.

**Code Mentor, MintBean:** Jun 2020 - Dec 2020 (Remote)

Helped participants plan, develop, and troubleshoot projects for Mintbean Hackathons.

## Education

**Carabobo University, Venezuela 2014:** Completed 95 credits towards BS in Telecommunication Engineering.
